DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of invention I and species 1 (claims 96-99, 101) in Papers No. 6 and 10 is acknowledged.

Claims 100 and 102-131 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention and species, there being no allowable generic or linking claim.

Specification

This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: the term "fence" (claim 1, line 15) could not be found in the specification.

Drawings

The drawings are objected to under 37 CFR 1.83(a) because they fail to show longitudinal opening 17 as described in the specification at page 7 of revised specification received January 2002. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 96-99, 101 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 96 recites the limitation "said penetrating apex shield segments" in line 17. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claim 96 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claims 97-99 and 101 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Yoon (U. S. Patent No. 5,591,190) and Cohen (U. S. Patent No. 5,295,977) show safety trocars with retractable shields.
